- 確保臨時買賣合約和買賣合約包含條例所規定的強制性條文。
- 留意有關物業買賣交易所包括的裝置、裝修物料和設備,須在臨時買賣合約和買賣合約上列明。

一手住宅物業買家須知

NOTES TO PURCHASERS OF FIRST-HAND RESIDENTIAL PROPERTIES

- 參觀示範單位時，務必視察無改動示範單位，以便與經改動示範單位作出比較。然而，條例並沒有限制賣方安排參觀無改動示範單位及經改動示範單位的先後次序。
- 賣方設置示範單位供公眾參觀時，應已提供有關發展項目的售樓說明書。因此，緊記先行索取售樓說明書，以便在參觀示範單位時參閱相關資料。
- 您可以在無改動示範單位及經改動示範單位中進行量度，並在無改動示範單位內拍照或拍攝影片，惟在確保示範單位參觀者人身安全的前提下，賣方可能會設定合理的限制。

適用於一手未落成住宅物業及尚待符合條件的已落成住宅物業

15. 預計關鍵日期及收樓日期

- 查閱售樓說明書中有關發展項目的預計關鍵日期³。
 - 售樓說明書中有關發展項目的預計關鍵日期並不同買家的「收樓日期」。買家的「收樓日期」必定較發展項目的預計關鍵日期遲。
- 收樓日期
 - 條例規定買賣合約須載有強制性條文，列明賣方須於買賣合約內列出的預計關鍵日期後的14日內，以書面為發展項目申請佔用文件、合格證明書，或地政總署署長的轉讓同意（視屬何種情況而定）。
 - 如發展項目屬地政總署預售樓花同意方案所規管，賣方須在合格證明書或地政總署署長的轉讓同意書發出後的一個月內（以較早者為準），就賣方有能力有效地轉讓有關物業一事，以書面通知買家；或

一手住宅物業買家須知

NOTES TO PURCHASERS OF FIRST-HAND RESIDENTIAL PROPERTIES

You are advised to take the following steps before purchasing first-hand residential properties.

FOR ALL FIRST-HAND RESIDENTIAL PROPERTIES

1. Important information

- Make reference to the materials available on the Sales of First-hand Residential Properties Electronic Platform (SRPE) (www.srpe.gov.hk) on the first-hand residential property market.
- Study the information on the website designated by the vendor for the development, including the sales brochure, price lists, documents containing the sales arrangements, and the register of transactions of a development.
- Sales brochure for a development will be made available to the general public at least 7 days immediately before a date of sale while price list and sales arrangements will be made available at least 3 days immediately before the date of sale.
- Information on transactions can be found on the register of transactions on the website designated by the vendor for the development and the SRPE.

2. Fees, mortgage loan and property price

- Calculate the total expenses of the purchase, such as solicitors' fees, mortgage charges, insurance fees and stamp duties.
- Check with banks to find out if you will be able to obtain the needed mortgage loan, select the appropriate payment method and calculate the amount of the mortgage loan to ensure it is within your repayment ability.
- Check recent transaction prices of comparable properties for comparison.
- Check with the vendor or the estate agent the estimated management fee, the amount of management fee payable in advance (if any), special fund payable (if any), the amount of reimbursement of the deposits for water, electricity and gas (if any), and/or the amount of debris removal fee (if any) you have to pay to the vendor or the manager of the development.

3. Price list, payment terms and other financial incentives

- Vendors may not offer to sell all the residential properties that are covered in a price list. To know which residential properties the vendors may offer to sell, pay attention to the sales arrangements which will be announced by the vendors at least 3 days before the relevant residential properties are offered to be sold.
- Pay attention to the terms of payment as set out in a price list. If there are discounts on the price, gift, or any financial advantage or benefit to be made available in connection with the purchase of the residential properties, such information will also be set out in the price list.
- If you intend to opt for any mortgage loan plans offered by financial institutions specified by the vendor, before entering into a preliminary agreement for sale and purchase (PASP), you must study the details of various mortgage loan plans¹ as set out in the price list concerned. If you have any questions about these mortgage loan plans, you should check with the financial institutions concerned direct before entering into a PASP.

¹ The details of various mortgage loan plans include the requirements for mortgagors on minimum income level, the loan limit under the first mortgage and second mortgage, the maximum loan repayment period, the change of mortgage interest rate throughout the entire repayment period, and the payment of administrative fees.

4. Property area and its surroundings

- Pay attention to the area information in the sales brochure and price list, and price per square foot/ metre in the price list. According to the Residential Properties (First-hand Sales) Ordinance (Cap. 621) (the Ordinance), vendors can only present the area and price per square foot and per square metre of a residential property using saleable area. Saleable area, in relation to a residential property, means the floor area of the residential property, and includes the floor area of every one of the following to the extent that it forms part of the residential property – (i) a balcony; (ii) a utility platform; and (iii) a verandah. The saleable area excludes the area of the following which forms part of the residential property – air-conditioning plant room; bay window; cockloft; flat roof; garden; parking space; roof; stairhood; terrace and yard.
- Floor plans of all residential properties in the development have to be shown in the sales brochure. In a sales brochure, floor plans of residential properties in the development must state the external and internal dimensions of each residential property². The external and internal dimensions of residential properties as provided in the sales brochure exclude plaster and finishes. You are advised to note this if you want to buy furniture before handing over of the residential property.
- Visit the development site and get to know the surroundings of the property (including transportation and community facilities). Check town planning proposals and decisions which may affect the property. Take a look at the location plan, aerial photograph, outline zoning plan and cross-section plan that are provided in the sales brochure.

5. Sales brochure

- Ensure that the sales brochure you have obtained is the latest version. According to the Ordinance, the sales brochure made available to the public should be printed or examined, or examined and revised within the previous 3 months.
- Read through the sales brochure and in particular, check the following information in the sales brochure –
 - whether there is a section on “relevant information” in the sales brochure, under which information on any matter that is known to the vendor but is not known to the general public, and is likely to materially affect the enjoyment of a residential property will be set out. Please note that information contained in a document that has been registered with the Land Registry will not be regarded as “relevant information”;
 - the cross-section plan showing a cross-section of the building in relation to every street adjacent to the building, and the level of every such street in relation to a known datum and to the level of the lowest residential floor of the building. This will help you visualize the difference in height between the lowest residential floor of a building and the street level, regardless of how that lowest residential floor is named;
 - interior and exterior fittings and finishes and appliances;
 - the basis on which management fees are shared;
 - whether individual owners have obligations or need to share the expenses for managing, operating and maintaining the public open space or public facilities inside or outside the development, and the location of the public open space or public facilities; and
 - whether individual owners have responsibility to maintain slopes.

² According to section 10(2)(d) in Part 1 of Schedule 1 to the Ordinance, each of the floor plans of the residential properties in the development in the sales brochure must state the following –
(i) the external dimensions of each residential property;
(ii) the internal dimensions of each residential property;
(iii) the thickness of the internal partitions of each residential property;
(iv) the external dimensions of individual compartments in each residential property.

According to section 10(3) in Part 1 of Schedule 1 to the Ordinance, if any information required by section 10(2)(d) in Part 1 of Schedule 1 to the Ordinance is provided in the approved building plans for the development, a floor plan must state the information as so provided.

NOTES TO PURCHASERS OF FIRST-HAND RESIDENTIAL PROPERTIES

6. Government land grant and deed of mutual covenant (DMC)

- Read the Government land grant and the DMC (or the draft DMC). Information such as ownership of the rooftop and external walls can be found in the DMC. The vendor will provide copies of the Government land grant and the DMC (or the draft DMC) at the place where the sale is to take place for free inspection by prospective purchasers.
- Check the Government land grant on whether individual owners are liable to pay Government rent.
- Check the DMC on whether animals can be kept in the residential property.

7. Information on Availability of Residential Properties for Selection at Sales Office

- Check with the vendor which residential properties are available for selection. If a “consumption table” is displayed by the vendor at the sales office, you may check from the table information on the progress of sale on a date of sale, including which residential properties are offered for sale at the beginning of that date of sale and which of them have been selected and sold during that date of sale.
- Do not believe in rumours about the sales condition of the development and enter into a PASP rashly.

8. Register of Transactions

- Pay attention to the register of transactions for a development. A vendor must, within 24 hours after entering into a PASP with a purchaser, enter transaction information of the PASP in the register of transactions. The vendor must, within 1 working day after entering into an agreement for sale and purchase (ASP), enter transaction information of the ASP in the register of transactions. Check the register of transactions for the concerned development to learn more about the sales condition of the development.
- Never take the number of registrations of intent or cashier orders a vendor has received for the purpose of registration as an indicator of the sales volume of a development. The register of transactions for a development is the most reliable source of information from which members of the public can grasp the daily sales condition of the development.

9. Agreement for sale and purchase

- Ensure that the PASP and ASP include the mandatory provisions as required by the Ordinance.
- Pay attention that fittings, finishes and appliances to be included in the sale and purchase of the property are inserted in the PASP and ASP.
- Pay attention to the area plan annexed to the ASP which shows the total area which the vendor is selling to you. The total area which the vendor is selling to you is normally greater than the saleable area of the property.
- A preliminary deposit of **5%** of the purchase price is payable by you to the owner (i.e. the seller) on entering into a PASP.
- If you do not execute the ASP within **5 working days** (working day means a day that is not a general holiday or a Saturday or a black rainstorm warning day or gale warning day) after entering into the PASP, the PASP is terminated, the preliminary deposit (i.e. 5% of the purchase price) is forfeited, and the owner (i.e. the seller) does not have any further claim against you for not executing the ASP.
- If you execute the ASP within 5 working days after the signing of the PASP, the owner (i.e. the seller) must execute the ASP within 8 working days after entering into the PASP.
- The deposit should be made payable to the solicitors’ firm responsible for stakeholding purchasers’ payments for the property.

10. Expression of intent of purchasing a residential property

- Note that vendors (including their authorized representative(s)) should not seek or accept any specific or general expression of intent of purchasing any residential property before the relevant price lists for such properties are made available to the public. You therefore should not make such an offer to the vendors or their authorized representative(s).
- Note that vendors (including their authorized representative(s)) should not seek or accept any specific expression of intent of purchasing a particular residential property before the sale of the property has commenced. You therefore should not make such an offer to the vendors or their authorized representative(s).

11. Appointment of estate agent

- Note that if the vendor has appointed one or more than one estate agents to act in the sale of any specified residential property in the development, the price list for the development must set out the name of all the estate agents so appointed as at the date of printing of the price list.
- You may appoint any estate agent (not necessarily from those estate agency companies appointed by the vendor) to act in the purchase of any specified residential property in the development, and may also not appoint any estate agent to act on your behalf.
- Before you appoint an estate agent to look for a property, you should –
 - find out whether the agent will act on your behalf only. If the agent also acts for the vendor, he/she may not be able to protect your best interests in the event of a conflict of interest;
 - find out whether any commission is payable by you to the estate agent and, if so, its amount and the time of payment; and
 - note that only licensed estate agents or salespersons may accept your appointment. If in doubt, you should request the estate agent or salesperson to produce his/her Estate Agent Card, or check the Licence List on the Estate Agents Authority website: www.eaa.org.hk.

12. Appointment of solicitor

- Consider appointing your own solicitor to protect your interests. If the solicitor also acts for the vendor, he/she may not be able to protect your best interests in the event of a conflict of interest.
- Compare the charges of different solicitors.

FOR FIRST-HAND UNCOMPLETED RESIDENTIAL PROPERTIES

13. Pre-sale Consent

- For uncompleted residential property under the Lands Department Consent Scheme, seek confirmation from the vendor whether the “Pre-sale Consent” has been issued by the Lands Department for the development.

14. Show flats

- While the vendor is not required to make any show flat available for viewing by prospective purchasers or the general public, if the vendor wishes to make available show flats of a specified residential property, the vendor must first of all make available an unmodified show flat of that residential property and that, having made available such unmodified show flat, the vendor may then make available a modified show flat of that residential property. In this connection, the vendor is allowed to make available more than one modified show flat of that residential property.

一手住宅物業買家須知

NOTES TO PURCHASERS OF FIRST-HAND RESIDENTIAL PROPERTIES

- If you visit the show flats, you should always look at the unmodified show flats for comparison with the modified show flats. That said, the Ordinance does not restrict the discretion of the vendor in arranging the sequence of the viewing of unmodified and modified show flats.
- Sales brochure of the development should have been made available to the public when the show flat is made available for viewing. You are advised to get a copy of the sales brochure and make reference to it when viewing the show flats.
- You may take measurements in modified and unmodified show flats, and take photographs or make video recordings of unmodified show flats, subject to reasonable restriction(s) which may be set by the vendor for ensuring safety of the persons viewing the show flat.

FOR FIRST-HAND UNCOMPLETED RESIDENTIAL PROPERTIES AND COMPLETED RESIDENTIAL PROPERTIES PENDING COMPLIANCE

15. Estimated material date and handing over date

- Check the estimated material date³ for the development in the sales brochure.
 - The estimated material date for a development in the sales brochure is not the same as the date on which a residential property is handed over to purchaser. The latter is inevitably later than the former.
- Handing over date
 - The mandatory provisions to be incorporated in an ASP as required by the Ordinance include a provision requiring the vendor to apply in writing for an Occupation Document/ a Certificate of Compliance or the Director of Lands' Consent to Assign (as the case may be) in respect of the development within 14 days after the estimated material date as stipulated in the ASP.
 - For development subject to the Lands Department Consent Scheme, the vendor is required to notify the purchaser in writing that the vendor is in a position validly to assign the property within one month after the issue of the Certificate of Compliance or the Consent to Assign, whichever first happens; or
 - For development not subject to the Lands Department Consent Scheme, the vendor is required to notify the purchaser in writing that the vendor is in a position validly to assign the property within 6 months after the issue of the Occupation Document including Occupation Permit.
 - The mandatory provisions to be incorporated in an ASP as required by the Ordinance include a provision requiring completion of the sale and purchase within 14 days after the date of the notification aforesaid. Upon completion, the vendor shall arrange handover of the property to the purchaser.
- Authorized Person (AP) may grant extension(s) of time for completion of the development beyond the estimated material date.
 - The mandatory provisions to be incorporated in an ASP as required by the Ordinance include a provision that the AP of a development may grant an extension of time for completion of the development beyond the estimated material date having regard to delays caused exclusively by any one or more of the following reasons:
 - strike or lock-out of workmen;
 - riots or civil commotion;
 - force majeure or Act of God;
 - fire or other accident beyond the vendor's control;
 - war; or
 - inclement weather.

- The AP may grant more than once such an extension of time depending on the circumstances. That means handover of the property may be delayed.
 - The mandatory provisions to be incorporated in an ASP as required by the Ordinance also include a provision requiring the vendor to, within 14 days after the issue of an extension of time granted by the AP, furnish the purchaser with a copy of the relevant certificate of extension.
- Ask the vendor if there are any questions on handing over date.

FOR FIRST-HAND COMPLETED RESIDENTIAL PROPERTIES

16. Vendor's information form

- Ensure that you obtain the "vendor's information form(s)" printed within the previous 3 months in relation to the residential property/properties you intended to purchase.

17. Viewing of property

- Ensure that, before you purchase a residential property, you are arranged to view the residential property that you would like to purchase or, if it is not reasonably practicable to view the property in question, a comparable property in the development, unless you agree in writing that the vendor is not required to arrange such a comparable property for viewing for you. You are advised to think carefully before signing any waiver.
- You may take measurements, take photographs or make video recordings of the property, unless the property is held under a tenancy or reasonable restriction(s) is/are needed to ensure safety of the persons viewing the property.

批地文件特別條件第40(d)條規定，任何就公眾道路涉及通行權區域旁邊及上方所進行的改動，一旦涉及通行權或影響其斜度，承授人不得就此作出申索，並應自費進行其後的改動，並取得署長滿意。

批地文件特別條件第40(e)條規定，在本特別條件第(a)分條授予的通行權並不代表承授人被授予對前述鋪設通路的專用權利。政府保留於現時或將來向附近任何其他地段擁有人授予前述鋪設通路的通行權的權利，或基於一條公眾街道的用途接管前述鋪設通路的全部或任何部分，而不須向承授人或其他已獲授予前述鋪設通路的全部或任何部分通行權的擁有人支付任何補償金。

SUMMARY OF LAND GRANT

Special Condition No.24 of the Land Grant provides that the Grantee shall pay to the Government on demand any sum which the Secretary shall certify to be the cost of making good any damage done to adjoining public roads by the Grantee, his contractors or sub-contractors or his or their workmen or vehicles by any spoil from the Lot.

Special Condition No.27 of the Land Grant provides that any damage or obstruction caused by the Grantee, his servants or agents to any nullah, sewer, storm-water drain, watermain or other Government properties within or adjoining the Lot shall be made good by the Government at the cost of the Grantee, and the amount due in respect thereof shall be paid on demand to the Government by the Grantee.

Special Condition No.28 of the Land Grant provides that the Grantee shall pay to the Government on demand the cost of connecting any drains and sewers from the Lot to the Government storm-water drains and sewers when laid. Such works shall be carried out by the Director of Public Works, who shall incur no liability to the Grantee in respect thereof.

Special Condition No.35 of the Land Grant provides that:-

- (a) A filtered water supply from Government mains will be given on the usual terms and subject to the provisions of the Waterworks Ordinance or any enactment amending or replacing the same, but no guarantee is given that any water that is supplied will be continuously available.

Consent to use fresh water from the mains for such purposes may be given if an alternative supply is impracticable and evidence to that effect is offered to and accepted by the Water Authority. If a mains supply of salt water is provided, the Grantee shall not implement his proposals for plumbing until such proposals have been approved in writing by the Water Authority. In the event of an alternative supply proving inadequate, the fact that salt water may in the future be unsuitable for the plumbing installed will not be accepted as a justification for the use of mains fresh water for flushing purposes.

Special Condition No.40(d) of the Land Grant provides that any alteration to any public road absorbing a portion of the ROW Area over and along which a right of way is given or affecting the gradient thereof, shall not give rise to any claim by the Grantee who shall at his own expense carry out all consequential alterations to the paved way constructed by him to the satisfaction of the Director.

Special Condition No.40(e) of the Land Grant provides that the grant of the right of way referred to in sub-clause (a) of this Special Condition shall not give the Grantee the exclusive right over the ROW Area. The Government shall have the right to grant rights of way over the ROW Area to the owners of any other lots in the vicinity now or at any time in the future, or to take over the whole or any portion of

the ROW Area for the purposes of a public street without payment of any compensation to the Grantee or to other owners to whom rights of way over the whole or any portion of the ROW Area may have been granted.

Special Condition No.40(f) of the Land Grant provides that in the event of the non-fulfilment of the Grantee's obligations under sub-clause (b) and (c) of this Special Condition, the Government may carry out the necessary construction, maintenance and repair works at the cost of the Grantee who shall pay to the Government on demand a sum equal to the cost thereof, such sum to be determined by the Director whose determination shall be final and shall be binding upon the Grantee.

Special Condition No.40(g) of the Land Grant provides that notwithstanding the grant of the right of way referred to in sub-clause (a) of this Special Condition, the Government shall have the full right and power, upon giving to the Grantee, not less than fourteen days' written notice (save in case of emergency) to lay, install, relay, divert, remove, re-provision, replace, inspect, operate, repair, maintain and renew any Government or other drain, culvert, waterway or watercourse, sewer, nullah, water main, pipe, cable, wire, line, utility service or other works or installations (all together hereinafter referred to as "the services") which are now or may hereafter be upon, over, under or adjacent to the ROW Area as the Director may in his absolute discretion deem fit, making good any and all damages caused thereby, and the Director, his officers, contractors and any other persons authorised by him, his or their workmen with or without tools, equipment, plant, machinery or motor vehicles shall have the right of free ingress, egress and regress at all times to and from the ROW Area for the purposes aforesaid. The Grantee shall not disturb or allow anybody to disturb the services without prior written approval from the Director. Save in respect of making good any and all damage caused by any exercise of the aforesaid rights and powers, the Government, the Director, his officers, contractors and any other persons authorised by him, his or their workmen shall have no liability in respect of any loss, damage, nuisance or disturbance whatsoever caused to or suffered by the Grantee arising out of or incidental to the exercise of the rights conferred under this sub-clause, and no claim nor objection shall be made against him or them by the Grantee.

Special Condition No.41 of the Land Grant provides that the Grantee shall take or cause to be taken all proper and adequate care, skill and precautions at all times, and particularly when carrying out construction, maintenance, renewal or repair work (hereinafter referred to as "the Works"), to avoid causing any damage, disturbance or obstruction to any Government or other existing drain, waterway or watercourse, water main, road, footpath, street furniture, sewer, nullah, pipe, cable, wire, utility service or any other works or installations being or running upon, over, under or adjacent to the Lot or any part thereof or the ROW Area or both the Lot or any part thereof and the ROW Area (hereinafter collectively referred to as "the Services"). The Grantee shall prior to carrying out any of the Works make or cause to be made such proper search and enquiry as may be necessary to ascertain the present position and levels of the Services, and shall submit his

proposals for dealing with any of the Services which may be affected by the Works in writing to the Director for his approval in all respects, and shall not carry out any work whatsoever until the Director shall have given his written approval to the Works and to such aforesaid proposals. The Grantee shall comply with and at his expense meet any requirements which may be imposed by the Director in respect of the Services in granting the aforesaid approval, including the cost of any necessary diversion, relaying or reinstatement. The Grantee shall at his own expense in all respects repair, make good and reinstate to the satisfaction of the Director any damage, disturbance or obstruction caused to the Lot or any part thereof or the ROW Area or both the Lot or any part thereof and the ROW Area or any of the Services in any manner arising out of the Works (except for nullah, sewer, storm-water drain or water main, the making good of which shall be carried out by the Director, unless the Director elects otherwise, and the Grantee shall pay to the Government on demand the cost of such works). If the Grantee fails to carry out any such necessary diversion, relaying, repairing, making good and reinstatement of the Lot or any part thereof or the ROW Area or both the Lot or any part thereof and the ROW Area or of any of the Services to the satisfaction of the Director, the Director may carry out any such diversion, relaying, repairing, making good or reinstatement as he considers necessary and the Grantee shall pay to the Government on demand the cost of such works.

Special Condition No.47 of the Land Grant provides that where prestressed ground anchors have been installed, upon development or redevelopment of the Lot or any part thereof, the Grantee shall at his own expense carry out regular maintenance and regular monitoring of the prestressed ground anchors throughout their service life to the satisfaction of the Director and shall supply to the Director such reports and information on all such monitoring works as the Director may from time to time in his absolute discretion require. If the Grantee shall neglect or fail to carry out the required monitoring works, the Director may forthwith execute and carry out the monitoring works and the Grantee shall on demand repay to the Government the cost thereof.
