# Floor plans of residential properties in the development

## 發展項目的住宅物業的樓面平面圖

21/F-22/F

21樓至22樓

Description 描述	Flat 單位							
	A1	A2	A3	A5	A6	A7	A8	A9
Floor-to-floor height (refers to the height between the top surface of the structural slab of a floor and the top surface of the structural slab of its immediate upper floor) of each residential property (m) 每個住宅物業的層與層之間的高度(指該樓層之石屎地台面與上一層石屎地台面之高度距離)(米)	3.000							
Thickness of the floor slabs (excluding plaster) of each residential property (mm) 每個住宅物業的樓板(不包括灰泥)厚度(毫米)	150	150, 175						150

The internal areas of the residential properties on the upper floors will generally be slightly larger than those on the lower floors because of the reducing thickness of the structural walls on the upper floors. (This statement does not apply to the residential properties in the Development because the design of the Development is such that the reducing thickness of the structural walls of residential properties on the upper floors does not increase the internal areas of those residential properties.)

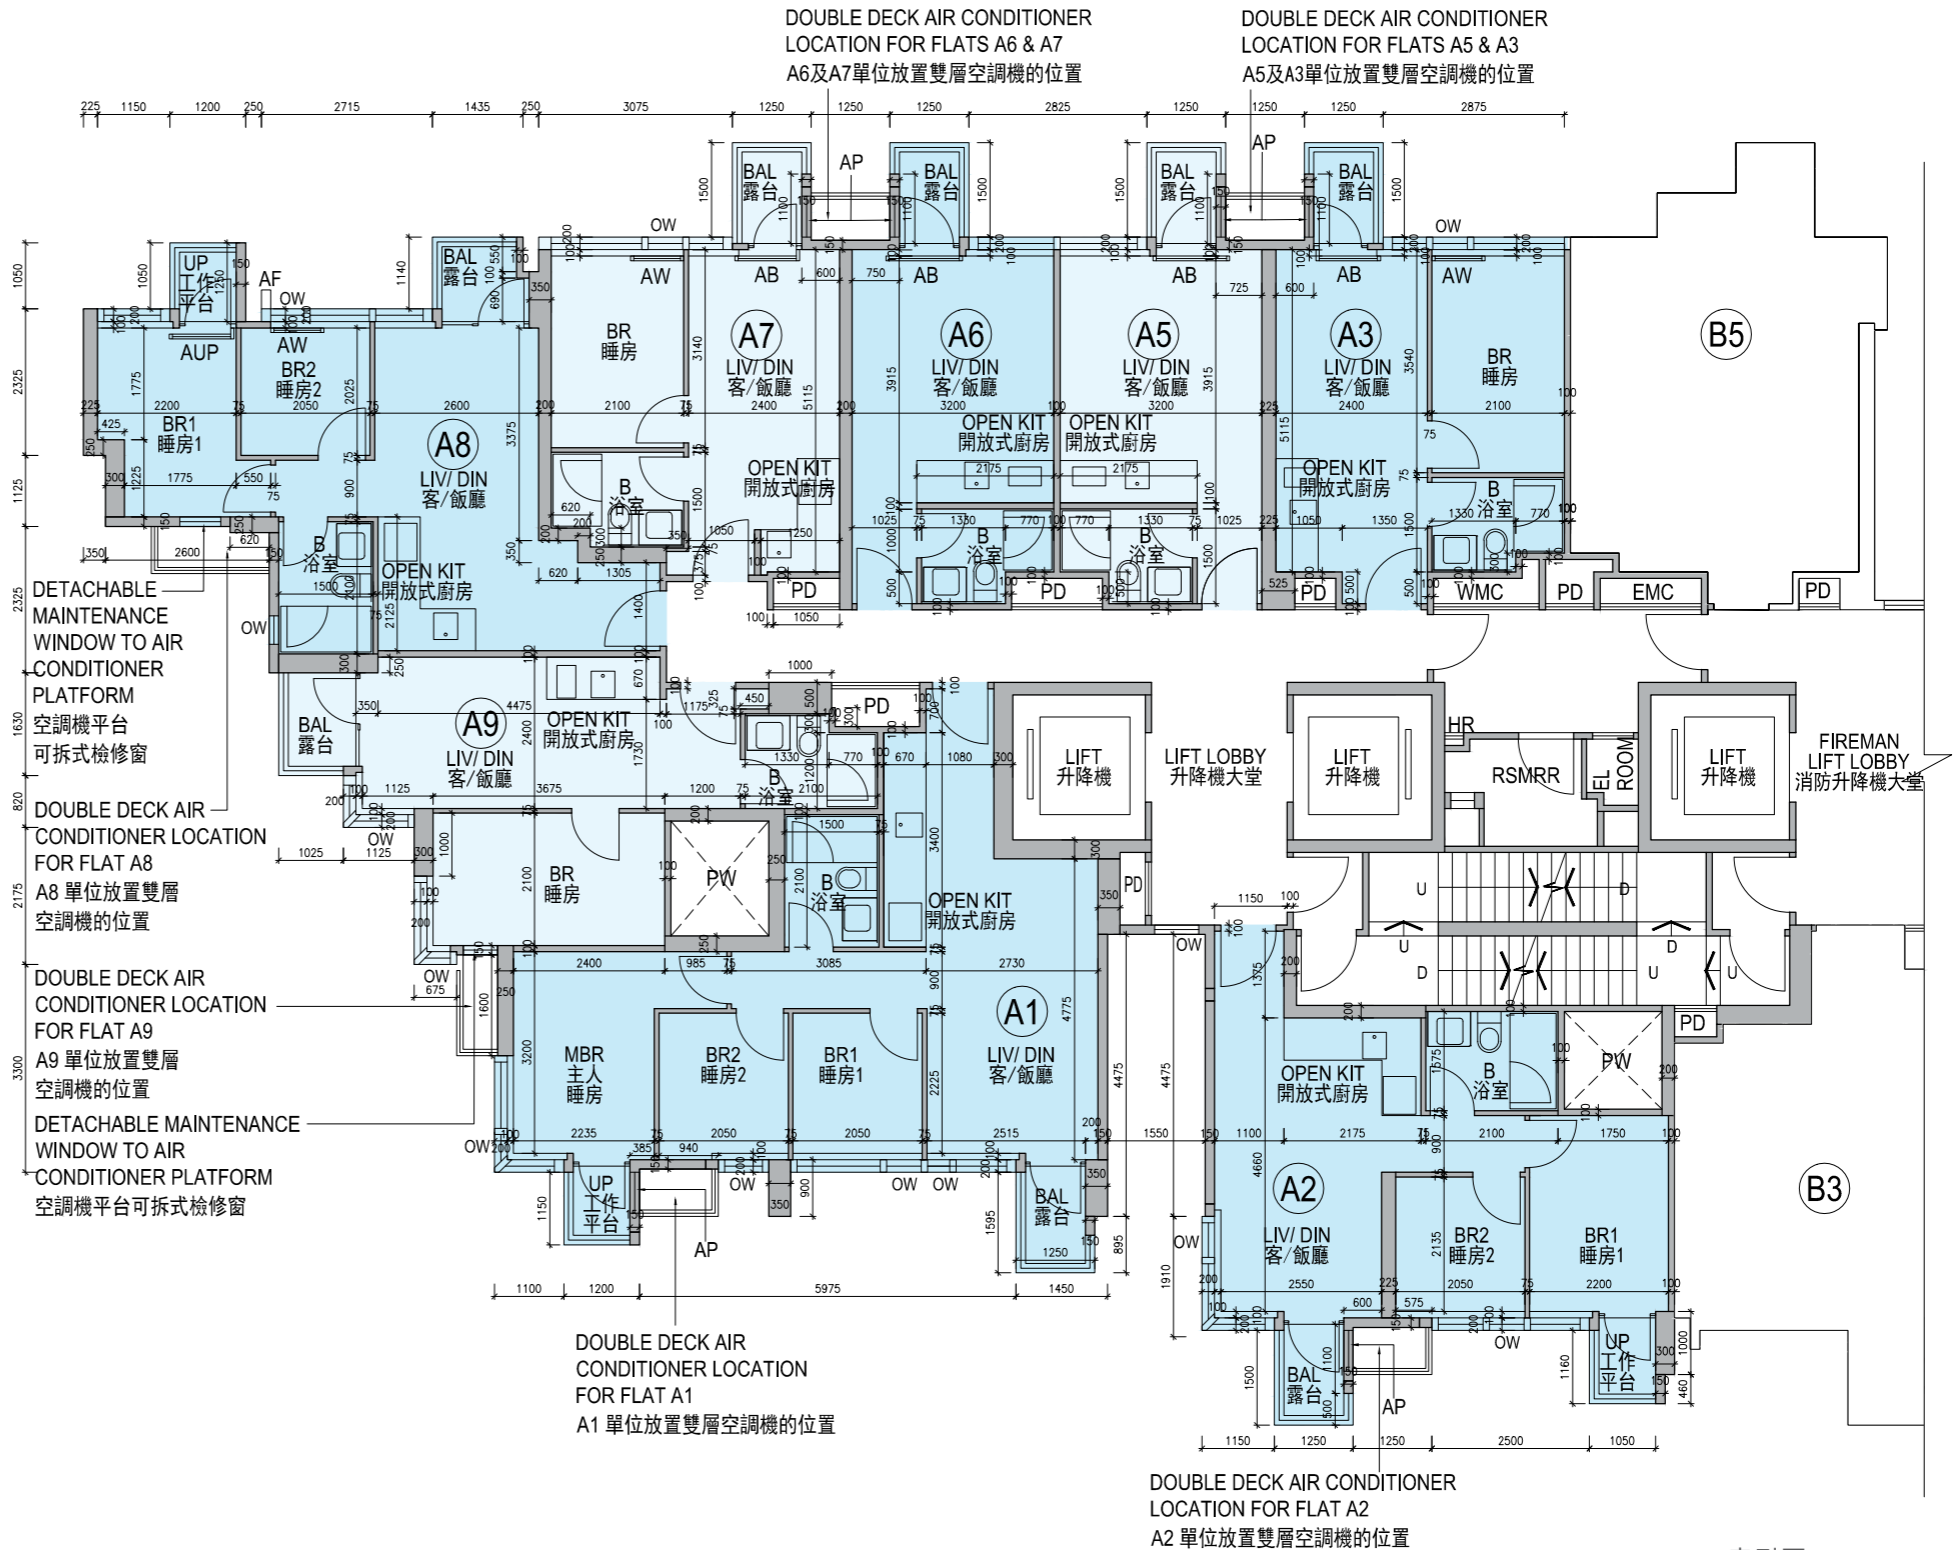

因住宅物業的較高樓層的結構牆的厚度遞減，較高樓層的內部面積，一般比較低樓層的內部面積稍大。(不適用於發展項目內的住宅物業，因為發展項目的設計是較高樓層的住宅物業的結構牆的厚度遞減不會增加該等住宅物業的內部面積。)

### Remarks :

- The dimensions in the floor plans are all structural dimensions in millimetre.
- For details of the noise mitigation measures, please refer to the Relevant Information section in this sales brochure.
